Level 3 — 25 marks/question

L3-Q1. (H) Perfect Squares

j

CODE

```
import java.util.*;

public class PerfectSquares{
    public static void main(String[] args){
        Scanner sc=new Scanner(System.in);

        int lower=sc.nextInt();

        int upper=sc.nextInt();
        ArrayList<Integer>result=new ArrayList<>();
        if(lower>upper){
            System.out.println(result);
            return;
        }
        for(int i=lower;i<=upper;i++){
            if(i>=0){
                int root=(int)Math.sqrt(i);
                if(root*root==i&&root<10){
                    result.add(i);
                }
            }
        }

        System.out.println(result);
    }
}
```

INPUT

1
40

OUTPUT

[1, 4, 9, 16, 25, 36]

L3-Q2. (H) Students-Teachers

j

CODE

```
import java.util.Scanner;
class Main{
    public static void main(String[] args){
        Scanner sc=new Scanner(System.in);

        int totalUsers=sc.nextInt();

        int staffUsers=sc.nextInt();
        int studentUsers;
        if(totalUsers<0||staffUsers<0||staffUsers>totalUsers){
            studentUsers=0;
        }else{
            int nonTeachingStaff=staffUsers/3;
            studentUsers=totalUsers-staffUsers-nonTeachingStaff;
            if(studentUsers<0){
                studentUsers=0;
            }
        }
        System.out.println("Student User:"+studentUsers);
    }
}
```
